■ Máme FlowSpec (konečně!) a co s ním?

- Nabídnout využití pro gramotné správce
- Nabídnout využití pro řešení incidentů týmu CESNET-CERTS
- Nabídnout využití pro připojené klienty

■ Jak to udělat?

- Využití již existujících programů (výsledek hledání - nula)
- Napíšeme si vlastní! (Fakt? A to jako kdo?)

■ Ajdeme na to! Zadání:

- Hierarchická struktura, práva a vůbec všechno (+ několik popsaných papírů a pár desítek hodin diskuzí k tomu)

■ Je to tak jednoduché? Ne – máme už třetí zcela přepsanou verzi ;-)

- A vloženo pár měsíců práce...
